

Welcome to Jacksons, let us share with you a little of our journey...

Our history

We can trace our roots back to 1923 when Mr T. Jackson set up shop as an insurance agent in Penzance, Cornwall.

The world of insurance and personal finance has changed a great deal since then, and in 1974 the partners of T. Jackson & Sons established a separate business, Jackson Life & Pensions Ltd, which we now call Jacksons Wealth Management.

Chartered Planners

For nearly 50 years we have been at the forefront of financial planning in Cornwall, and we are a firm of **Chartered Financial Planners**, demonstrating our commitment to achieving the highest standards of professional excellence in our work for our clients, both local and those further afield.

Planning with Jacksons

We believe that financial planning is the best investment anyone can make. This process, which is described in more detail in the pages of this booklet, starts with your goals and objectives, and organises your finances in the best way possible to meet those goals.

We use the latest software to plan, implement and report on your financial situation, giving you a clear picture of your finances.

Long Term Relationships

At Jacksons we pride ourselves on our ability to nurture long-term relationships with our clients. In some cases, we are now advising the fourth generation of our client families.

Our commitment is to your long-term success, using our understanding of the challenges faced by our clients in Cornwall and beyond.

What you need to know about our agreement to work together

Firstly, if you would like this document in larger print or in another format, please contact us.

We are a financial planning business, focused on helping you understand and plan for your financial future. This information is designed to give you an idea of:

What we do and how we do it (our services)

What it's likely to cost (fees) and how you can pay us

This document provides details about our services to you and how we charge, so it's important that you read it fully. If there is something you don't understand please ask us to explain it.

Our Guiding Principles

We believe:

...that financial advice relating to products and investments can only be effectively given in the context of financial planning, a holistic process that takes into account your entire financial and personal situation.

Simply put, the process is this:

1. **Work with you to identify and articulate your goals.**
2. **Create a plan to help you achieve your goals.**
3. **Implement an investment/product strategy to fulfil the plan.**

Money is never an end in itself. Rather, it is a means of meeting your own stated life goals, whatever they may be. Our job is not to load you up with financial products that you don't need, but to find you the quickest, most cost-effective, and tax-efficient way to get from A to B.

Our Services

Whatever financial decisions you have to make, the first step towards making the right decisions is to establish a clear understanding of your financial needs.

People seek financial advice for many different reasons so it's important that we understand exactly who you are and what you want to achieve. At our first meeting we'll gather information about you to help define your needs and priorities.

Our services include:

Financial planning: It's important to identify what you might want to achieve and how you can do this. The initial planning work requires us to obtain details of your current situation, help you to identify your goals, and construct a plan for meeting them. Everyone's needs are different.

Investment & Retirement planning: It's important to know whether the money you are saving towards a specific goal, to give you financial comfort or for financial freedom and choice when it comes to retirement, is on track. If you're in the **accumulation** phase of life, your planning needs will likely be fairly simple. If, on the other hand, you're approaching **retirement** and looking to make that transition in the best way possible, chances are your planning needs are much more complex.

Protection planning: Most of us want to protect the things that are important to us - our family, business and quality of life - but where do we start? Sometimes acknowledging the gap helps work toward a solution. It is difficult to think of a time when you might be unwell or if the worst happens, not be around any longer. Protection planning can help to provide peace of mind in the event of unexpected events. We can work together to help you plan for the best way to protect you, your family or your business.

How do we build a plan?

We sometimes use sophisticated financial planning software to help us with planning scenarios and with the mathematical and taxation heavy lifting. We may present the plan to you in our offices or share our screen with you on a remote meeting.

The exciting part of this is you get to be on this journey with us, we will talk through scenarios that you have mapped out at the beginning of our meetings, talk about what could impact your financial aspirations. We will also use the foundation plan to challenge your thinking and help you understand what you might need to do to really reach that goal.

We'll only start work once we have agreed our services and charges with you. We'll give you a copy of our **Fee Agreement** which will set out the services we have agreed to provide and confirm how much this will cost.

Our advice

Where we recommend particular investment strategies and products to you, these will be selected based on your personal circumstances, your ethics, financial goals and objectives. We'll consider a number of factors, including the services you need, how you want to use the product, the cost of investing, how much risk you are prepared to accept in your planning including sitting with the highs and lows of investing and what a drop in your portfolio value could mean to you.

It is also important to us to let you know that Jacksons offer **independent** investment advice.

What does this mean?

We consider a wide range of financial strategies and products. We are constantly working with and reviewing companies within the market to ensure that their services, products and their ethics fit the way Jacksons wants to work with our clients.

Investments

The choice of avenues to invest your money is dependent on what you want to achieve and when we use products such as:

- Individual Savings Accounts (ISA)
- General Investment Accounts (GIAs)
- Investment Bonds
- Venture Capital Trusts (VCT)
- Enterprise Investment Scheme (EIS)
- Inheritance Tax Plans

Retirement Planning

Accumulating pensions or deciding how to use them in retirement is often more about planning than it is about the actual products used but, you could expect to have a discussion around the following products:

- Personal Pension
- Self-Invested Personal Pension (SIPP)
- SASS
- Annuities
- Junior Pensions

Protection

We want you to live your life without financial worry, to do so it's important to make sure you have a backup plan, to do this we use products such as:

- Life Cover
- Critical Illness
- Income Protection
- Whole of Life Cover

Equity Release

Our homes are often our largest asset, we spend a lot of time in them and a lot of money on them, so we don't always want to move to free up cash. The world of **equity release** has definitely moved on and is an option at Jacksons.

Investment Advice

We don't provide advice in relation to individual share holdings. If this is something you need assistance with, we can refer you to a stockbroker.

We don't provide advice on options, futures and other derivative contracts as we believe that these are unlikely to be suitable for our clients.

For Protection & Equity Release Advice

Where we provide protection planning services/equity release options, we do so based on a fair and personal analysis of the market.

Our obligations

Assessing your needs

Before providing advice, we'll assess your needs, consider your financial objectives and assess your attitude to any risks that may be involved. If you don't want to discuss a particular area of financial planning and that area should not form part of the advice given, we can exclude it, if you instruct us to do so. This might of course have a bearing on the advice that might have been given.

Before making any recommendations, we'll carry out a suitability assessment so that we are able to act in your best interests. We'll confirm any recommendations we make in writing (our suitability report) along with details of any special risks that may be associated with the products or investment strategies we've recommended.

Ongoing suitability & Investing

Where we agree to provide you with a service that includes an ongoing review of the suitability of the investments we have recommended, we'll carry out this review at least annually. To do this we will need to make contact with you to assess whether the information we hold about you remains accurate and up to date. We'll issue you with a report setting out the results of our assessment and, if relevant, any updated recommendations.

Please be aware that investments can fall as well as rise, and that you may not get back the full amount invested. The price of investments we may recommend may depend on fluctuations in the financial markets or other economic factors which are outside our control. Past performance is not necessarily a guide to future performance.

We may, where appropriate, recommend holding some, or all, of your investments with a discretionary fund manager (DFM), a professional investment manager appointed to monitor your portfolio and make investment decisions on your behalf. In such cases we'll explain the respective responsibilities of ourselves and the DFM in relation to your investments.

We may occasionally recommend investments that are not readily realisable. We'll only do this where appropriate but, if we do, we'll draw your attention to the risks associated with the investments in our suitability report. There is a restricted market for such investments and in some circumstances, it may not be possible to deal in the investment or obtain reliable information about its value.

Working with Professional clients

We may take into account your expertise as a professional client when complying with the requirements to provide you with a general description of the nature and risks of particular transactions.

We are entitled to assume that in relation to the products, transactions and services for which you are categorised as a professional client, you have the necessary level of experience and knowledge to understand the risks involved, for the purposes of assessing suitability.

Ongoing charges

We like to build long-term relationships with our clients – often over many decades – meaning that our process is circular, rather than linear. **Ongoing fees are a maximum of 0.75% of the money we look after for you.**

Every year, we interact with you in a regular way using specific touch points (planning reviews) to look at how things have moved forward in line with your plan. We'll also consider if anything has changed in your life or in the financial world before making any updates that might be needed. If we do need to make changes, we'll circle back around to explore your needs before working through to create an evolved plan.

The ongoing fee we agreed is important to maintain and evolve your financial planning throughout your lifetime. The ongoing fee gives you so more than suggested below, for most clients, it provides a constant source of support in all aspects of their financial life. That said, you should know that your ongoing fee covers everything below:

- Access to Jacksons portal 24/7 where you can message us, see your portfolio and let us know of any changes.
- Have access to the Jacksons team around you at all times.

Other charges

Protection based products

We take the time to find out about your financial situation, your current benefits, maybe work benefits to find the gaps; we will then produce a report to let you know what you have (if anything) what you need and what are recommendation would be, this report will cost a **minimum of £995** whether you go ahead with application based on our recommendation or not.

Arranging protection can be a time-consuming process involving medical professionals, underwriters and a lot of to-ing and fro-ing. Commission is available from insurance providers, and we will retain this commission when we are successful in placing the insurance for you.

Equity Release

The costs for our advice regarding Equity Release is **2% of the mortgage arranged, subject to a minimum fee of £1,500**. Please note we do not arrange Home Reversion plans. For example, for arranging a borrowing of £150,000 we would charge £3,000. In most cases, there is a commission payable to us by the chosen mortgage provider which can be used to reduce or offset your fees.

Other Charges

Depending on the services we provide, there may be costs and charges (including taxes), not charged by us, but related to the financial products we arrange for you. These charges may be one-off charges (payable up front) or charges payable on an ongoing basis. For example:

- **Service costs:** If your investments are held on a platform (an online investment administration service) or held with a DFM, the platform provider / DFM will make a charge for administering / managing your investments
- **Investment costs:** These are the costs relating to the manufacturing and managing of your investments – for example, fees charged by the investment fund manager, costs relating to investment transactions

We'll always disclose any third party costs as part of making our recommendations

Aggregated costs and charges

Before we provide you with our advice, we will add together all the costs and charges payable so that you are able to understand the overall costs of our services and recommendations. This is referred to as aggregated costs and charges information.

What do you need to do?

We think of good financial planning as a shared journey. We're here to plan and signpost, and we'll even come along with you – but ultimately, it's your destination we're heading towards, and an equal amount of effort and energy will come from you.

Our work is a process, not a transaction. It's interactive, engaging, challenging and empowering. We strive to make the process feel comfortable, natural, and even fun!

In order to complete your planning in as timely a fashion as possible, we often have to wrangle slow-moving pension providers, investment companies and insurers.

For your part, it would help us very much if you could commit to the following:

- Giving input into the process, which needs to work for you - we want you to be 100% happy with the outcome
- Telling us as much as you can about your situation, what you want to achieve and helping us with all the factual stuff
- Keeping an eye out for a portal message, answering telephone calls and emails promptly
- Signing and completing digital forms or returning paperwork ASAP
- Being involved in the process, talking to us regularly and feeling at ease in asking questions, if anything doesn't make sense
- Providing honest feedback on the planning we give, our recommendations and our overall service

Our advice will be based on the information that you give so it's important that you provide us with accurate and up-to-date information when we request details about your circumstances and objectives. If you limit the information provided it could affect the suitability of the advice, we give.

What else do you need to know

This document is intended to give you enough information about our company to enable you to understand how we can act for you. It is written as a series of questions and answers. If you have a question which is not answered here, please ask your Jacksons adviser, who will be pleased to answer it for you.

Financial Crime

We have put in place controls to prevent our business from being used for money laundering and other forms of financial crime. We'll verify your identity before undertaking any business with you. To do this we would ideally take ID directly from you, or, we may use electronic identity verification systems and we may conduct these checks from time to time throughout our relationship, not just at the beginning. This is normal and really helps us move things along quickly so don't be surprised if we ask for this more than once!

If we complete an electronic check, it may leave a 'footprint' on your credit file but it will not affect your credit rating.

Best Execution

We work closely with platforms and providers who are good at getting things set up in a timely manner.

Where we send investment/pension or protection applications on your behalf to third parties (for example to put an investment into force), we'll take all sufficient steps to ensure that we obtain the best possible result for you.

This is referred to as 'best execution'. We have a best execution policy. If you want to see a copy of it please ask us.

Conflicts of Interest

Although we'll always try to act in your best interests there may be situations where we or one of our other clients has some form of interest in the business being transacted for you. If this happens or we become aware that our interests or those of one of our other clients conflict with your own interests, we'll write to you and ask for your consent to proceed before we carry out any business for you. We'll also let you know the steps we'll take to make sure you are treated fairly.

We have a conflicts of interest policy. If you want to see a copy of it please ask us.
